Presenter

Jack Holzkecht is a principal with Pegasus Educational Services, LLC, a training firm headquartered in Louisville, Kentucky. He is an experienced consultant who has provided training to thousands of bankers and examiners for 25 years. He has the ability to identify the key compliance issues from each regulation.

Holzkecht's career began in 1976 as a federal bank examiner. He later headed the form and software and education divisions of a regional consulting company. In that capacity he developed loan and deposit form systems and software. He also developed and presented training programs to bankers in 43 states. Holzkecht has been an instructor at compliance schools presented by the Georgia, Iowa, Kentucky, Pennsylvania, Nebraska, New York, and Texas bankers associations. He developed and delivered compliance training for the FDIC and OTS for 10 years.

He is a Certified Regulatory Compliance Manager and a member of the National Speakers Association. He is also a "BOL Guru" at <http://www.bankersonline.com>.

2007 Flood Insurance Coverage Issues

August 9, 2007 ■ 1:30–3:30 pm, CT

In recent years, examiners from all agencies have been “targeting” the flood insurance area during compliance exams. In many cases penalties have been imposed. Frequently, the violations subject to penalties involve an inadequate amount of flood insurance or other coverage issues. This two-hour seminar covers all of the rules regarding flood insurance coverage.

To gain a better understanding of the ramifications of an incomplete understanding of this material, visit website below. If you are on the list, then you understand the importance. If you are not on the list, this program is designed to keep you off the list.

Why Participate?

The program provides the information needed by the lending, compliance, and audit staff to assure ongoing compliance with the law. Participants receive a detailed manual that serves as a handbook long after the program is completed.

Program Highlights

Upon completion of the program, participants understand:

- How much coverage is needed for different types of properties, including:
 - a single condo unit in a high-rise condo;
 - a piece of commercial property with multiple and varied buildings located on the property;
 - a construction loan secured by a lot and the home that is to be constructed;
 - a loan secured by a large valuable piece of agricultural property that has a small barn located on it;
- The different types of flood policies and what type is needed for a particular loan;
- What is and is not covered by a flood policy; and
- What is required by law, and more importantly, what is needed to protect the bank's interest in a loan?

Audience

The program is designed for loan officers, compliance officers, loan secretaries and clerks and auditors. The program is presented at the basic level.

Continuing Education

Applied: 2.5 hours per session CRCM/CLBB/CPB credit with the Institute of Certified Bankers.

Approved: 2 hours with the Texas State Board of Public Accountancy.

What Is a Webinar?

A webinar is an enhanced telephone seminar. The audio portion of the program is still delivered by speaker phone; however, you now have the option of viewing a corresponding visual presentation using your PC or a PC connected to an A/V projector for multiple participants. No special hardware is needed. You may still participate without the added web component.

The program includes 90 minutes of instruction and 30 minutes live Q&A. Each registration provides one connection to the live webinar, written materials, and 30-days' access to the online seminar (recorded copy of the event). You may have unlimited listeners on your connection by speaker phone and PC. You will receive a PIN, written materials, and instructions prior to the seminar. **E-mail confirmations may be intercepted by your E-mail security system as spam. If you do not receive a confirmation within 2 days of the event, please contact 888-262-7701.** You may also purchase the CD and materials.

New: Free 30-day Online Seminar — All presentations are archived within 5 working days of the broadcast. Webinar participants will receive a URL providing unlimited access to the presentation for 30 days. This enables you to participate in the live webinar, train additional staff, and review the material as needed.

Transmission, retransmission, or republishing of the audio portion of the seminar is prohibited. Your registration entitles you to 1 connection at 1 location with permission to make copies of materials for all participants.
