What Is a Webinar?

A webinar is an enhanced telephone seminar. The audio portion of the program is still delivered by speaker phone; however, you now have the option of viewing a corresponding visual presentation using your PC or a PC connected to an A/V projector for multiple participants. No special hardware is needed. You may still participate without the added web component.

The program includes 90 minutes of instruction and 30 minutes live Q&A. Each registration provides one connection to the live webinar, written materials, and 30–days' access to the online seminar (recorded copy of the event). You may have unlimited listeners on your connection by speaker phone and PC. You will receive a PIN, written materials, and instructions prior to the seminar. **E-mail confirmations may be intercepted by your E-mail security system as spam. If you do not receive a confirmation within 2 days of the event, please contact 888-262-7701.** You may also purchase the CD and materials.

New: Free 30-day Online Seminar — All presentations are archived within 5 working days of the broadcast. Webinar participants will receive a URL providing unlimited access to the presentation for 30 days. This enables you to participate in the live webinar, train additional staff, and review the material as needed.

Transmission, retransmission, or republishing of the audio portion of the seminar is prohibited. Your registration entitles you to 1 connection at 1 location with permission to make copies of materials for all participants.
